

intensive care and protection for irritated and fragile skin

octenicare® repair creme

Our Plus

- cares for irritated, dry and flaky skin
- nourishes epithelialising wounds
- protects from moisture and inhibits odour causing bacteria, such as those caused by incontinence
- compatible with octenisan® antibacterial wash lotion
- excellent skin compatibility
- dermatologically tested
- colour and perfume free

Application areas

- ideally suited as an accompanying treatment during the wound healing process
- intensive care for sensitive and irritated skin areas e.g. dry itchy skin
- for tattoo and scar care
- for follow-up care of small burns and sunburn
- suitable for incontinence patients

Instructions for use

Apply a thin layer of octenicare® repair creme to the affected areas of the skin and gently massage in. If applying over a wound, ensure the wound is fully epithelialised.

octenicare® repair creme can be used 1-3 times a day to support the natural regeneration of the skin. The tip of the creme tube should not touch the epithelialised wound or any other surfaces for hygienic reasons.

Product profile

- skin friendly oil in water emulsion
- contains panthenol to promote the natural regeneration of the skin, restoring skin suppleness, elasticity and smoothness
- contains bisabolol which has an anti-inflammatory effect to soothe and calm irritated skin

Special advice

Store at room temperature in the original container. Protect from frost, heat and direct sunlight.
